Scratched Glass Waiver

Releasing WINDOW CLEANER from any liability on regular and heat-treated glass scratching during cleaning.

Due to the widespread problems related to poor quality regular and heat-treated glass scratching during basic window cleaning and construction window cleaning, **Squeegee Pros, Inc.** will not be liable for any scratches on any regular, tempered or heat strengthened glass during maintenance or new construction window cleaning.

It is accepted and understood by ALL parties that properly used razor blades and scrapers are standard tools and techniques for window cleaning and can safely remove limited amounts of construction debris (plaster, paint, texture, tape, stickers, etc.) from quality glass, without scratching the glass surface.

Furthermore, it is accepted, that the use of razor blades and scrapers will be employed on all window cleaning and no other cleaning method will be offered by **Squeegee Pros, Inc.** to remove stubborn or construction debris from any glass surface.

If builder / customer does not choose to have window cleaner use razor blades or scrapers, builder / customer must cover all glass during entire construction process, which would protect glass from any construction debris and eliminate the need for **Squeegee Pros, Inc.** to use razor blades and scrapers to clean the glass.

For defects: it is accepted and understood by all parties that microscopic fabricating debris defects are invisible to cleaners and that Squeegee pros, Inc. does not offer to inspect clients glass for microscopic defects prior to or during cleaning.

For Time Delayed scratch growth: Due to time delayed scratch growth, fine or microscopic scratches may become visible over a 24 hour period; client understands and agrees that Squeegee pros, Inc. does not offer to inspect tempered glass for microscopic damage during cleaning.

This clause must be included on all contracts. If this clause is not acceptable, there is no contract between **Squeegee Pros, Inc.** and builder / customer.
